For immediate release

November 2024

Road Closure: PMB918 Mundesley, B1145 High Street

Resurfacing works at B1145 High Street, Mundesley are expected to start on Monday 25 November and take 5 days to complete, weather permitting. The work will see the old, damaged surface completely removed and replaced with a new asphalt surface.

During the resurfacing operations it will be necessary to close the B1145 High Street to all through traffic from its junction with Beach Road to its junction with Heath Lane and during this period a signed official diversion will be in place. These measures are essential to safely carry out the necessary maintenance works to the highway.

Please note, on street parking within closure will not be permitted. This to ensure unimpeded access to machinery due to narrow access / exit routes.

Access to private properties within the works will be maintained throughout the works at all times and site staff will be working to keep any delays to a minimum. Access to properties within the closure will be maintained for emergency services, and they will be informed that the road will be closed to through traffic so they will be able to plan accordingly.

The County Council thanks people for their patience while this carriageway maintenance work is carried out.

The work which will cost £84,600 will be carried out by Norfolk County Council's Community and Environmental Services Department and their contractors.

For further information
